Notes:

I arrived at the site at 10:24 a.m. The weather was sunny, 81°F, calm. The oil sprayed onto a soil pile placed in the pasture on the east side of pad. The vegetation has been cut on the top of the pile and the west edge of the pile to the fence around the pad. The cut vegetation has been removed. I did not see any oil staining on the soil. More followup needed. 47.26931, -102.92232
